

Appln. No. 10/721,987  
Amendment  
Reply to Office Action dated October 26, 2005

Docket No. 9660-4

### AMENDMENTS TO THE CLAIMS

This listing will replace all prior versions, and listings, of claims in the application:

1. (Currently amended) A brazier grill for grilling meat or similar foodstuff in a brazier, having grooved grill bars which are essentially placed in parallel to each other and single layered and which allow molten fats and cooking liquids emanating from a foodstuff grilled thereon to drain out during grilling,

wherein said grooved grill bars are placed in parallel to each other with a predetermined distance therebetween so as to form a grill opening having a width of 1 mm to 10 mm, in order to allow heat rays emitted from such heat source to contact said foodstuff directly on such grooved grill bars without encountering any obstructions during grilling,

wherein said grill openings between said grooved grill bars have a width of 4 mm to 8 mm so as to prevent flames from scorching food placed on the grill bars, and

wherein said grooved grill bars have a width of 5 mm to 30 mm.

2. (Cancelled)

3. (Previously presented) The brazier grill according to claim 1, wherein said grooved grill bars have a width of 15 mm to 20 mm.

4. (Currently amended) The A brazier grill according to claim 1 for grilling meat or similar foodstuff in a brazier, having grooved grill bars which are essentially placed in parallel to each other and single layered and which allow molten fats and cooking liquids emanating from a foodstuff grilled thereon to drain out during grilling,

wherein said grooved grill bars are placed in parallel to each other with a predetermined distance therebetween so as to form a grill opening having a width of 1 mm to 10 mm, in order to

allow heat emitted from such heat source to contact said foodstuff directly on such grooved grill bars without encountering any obstructions during grilling, and

wherein said grooved grill bars have a wavelike form and comprise three support points for foodstuffs.

5. (Cancelled)

6. (Currently amended) The brazier grill according to claim 1, wherein the grill bars are disposed on a brazier with a heat source which is placed under said brazier and with an inclined position having an inclination of 5° to 15° such that fat collected in the grooves can move towards an end of the bars away from foodstuff placed on the grill bars.
